ABSTRACT

A list, with descriptions, of all late responses - received after May 30, 1972 deadline - to the survey conducted for the main Directory is given. Only institutions/organizations reporting activities and/or research in comparative adult education (or at least studies of adult education abroad), or those reporting to have a library or documentation center, were included. In editing reports on activities carried out or in process or planning stages, areas of work, interest and activities, with titles of studies and projects, were listed rather than full bibliographical data, which is outside the scope of the directory. INTRODUCTION

A number of responses to the World Survey of Research in Comparative Adult Education were received after the deadline of May 30, 1972 and after the Directory already was in the printer's hands. This supplement includes all such late responses as far as these fell within the terms of the Directory.

As in the main Directory, in analysing the responses and compiling the directory, only those institutions/organizations reporting activities and/or research in comparative adult education (or at least studies of adult education abroad), or those reporting to have a library or documentation centre, were included. Those reporting only research of adult education in their own country were excluded (the only exception was reports of comparative studies of two or more regions or towns of the same country). Similarly, only individuals reporting comparative research carried out or in process or planning stages, or at least studies of adult education abroad, were included in the directory.

In editing the reports on activities carried out or in process or planning stages, areas of work, interest and activities, with titles of studies and projects, were listed rather than full bibliographical data, which is outside the scope of this directory. It is expected that anyone interested in more detailed information will get in touch with the institution/organization or individual reporting the study or project.
